Software engineer with 4+ years building backend systems in fintech and digital payments. I design and ship reliable APIs, authentication flows, and automation for high-volume financial platforms. I am currently pursuing an Erasmus Mundus MSc in Cybersecurity, and I am targeting Python-based Software Engineering roles where I can contribute across backend development, system reliability, and secure software delivery.

Skills

Languages	Python, JavaScript, SQL, Bash
Backend	Django, REST APIs, Microservices, Authentication, API Integrations
Data & Messaging	PostgreSQL, Redis, RabbitMQ, Transaction Processing, Data Pipelines
Testing & Quality	Pytest, Selenium, Postman, API Validation, Automation
Dev Tools	Git, Docker, Linux, Nginx, CI-friendly workflows
Domain Strength	FinTech Systems, Payment Gateway, Security-by-Design, PCI-DSS-aware Delivery

Technical Experience

Assistant Lead Engineer — Design & Solutions

Jun 2024 — August 2025

Nagad

Dhaka, Bangladesh

- Designed and delivered authentication and API solutions for mobile financial services at scale.
- Implemented a flash-call authentication flow and reduced dependency on OTP-based verification.
- Built token-based authorization mechanisms for service-to-service communication and secure session handling.
- Partnered with product and engineering teams to translate requirements into production-ready backend designs.

Associate Manager — Alternative Delivery Channels

Jun 2023 — Jun 2024

BRAC Bank PLC

Dhaka, Bangladesh

- Led backend integration efforts for national payment initiatives including TakaPay acquiring and Bangla QR.
- Delivered resilient API-driven payment workflows for merchant systems under regulated banking constraints.
- Built digital feedback and operational tooling integrated with ATM and channel infrastructure.
- Automated recurring internal processes, reducing manual operations and improving delivery speed.

Tech Talents — Management Trainee

Jul 2022 — May 2023

BRAC Bank PLC

Dhaka, Bangladesh

- Contributed to migration work for 3D Secure 2 (3DS2) to strengthen card transaction flows.
- Developed monitoring utilities for payment-switch activity and anomaly detection in transaction patterns.
- Built and maintained REST API components for merchant onboarding and service integration.

Software Engineer — Back-end & Blockchain

Oct 2021 — Jun 2022

Khan Soft Limited

Dhaka, Bangladesh

- Built backend services for a crypto payment gateway using Django, PostgreSQL, Redis, and RabbitMQ.
- Developed secure API communication and authentication workflows for transaction-heavy services.
- Implemented real-time data processing components for blockchain transaction tracking and reporting.
- Collaborated on production support, debugging, and performance tuning for distributed backend services.

Education

MSc in Cybersecurity, SRH University of Applied Sciences Heidelberg

Sep 2025 — Present

Bachelor of Science in Computer Science and Engineering, North South University

Jan 2017 — Feb 2022

CGPA 3.80 out of 4.00, North South University

Dhaka, Bangladesh

International Student Mobility, Erasmus Mundus Scholarship

Istanbul, Türkiye

Activities

Honors & Awards

- Champion** — Cyber Defense Innovation Challenge, a joint initiative of UNDP and The Daily Star.
- Summa Cum Laude** — Academic Excellence distinction at NSU's 25th Convocation.
- 100% Merit Scholarship** — Awarded by North South University for all 12 semesters.
- Nutan India-Bangladesh Maitree Muktiyoddha Sontan Scholarship** — Recipient.
